Coverage for initial hormone therapy is available when the member has met all the following criteria and such coverage is available under the member's policy:

1. Is at least 18 years old. Request for services for members under 18 years of age requires Medical Director review.
2. Member has persistent, well-documented Gender Dysphoria.
3. Member has any significant medical or behavioral health concerns that are being actively managed.
4. Member has capacity to make a fully informed decision and to consent for treatment.
5.
  - a. A licensed mental health professional (LMHP) has supplied a letter to the medical professional who will be responsible for the patient's endocrine treatments addressing the following points:
    - i. The patient's general identifying characteristics;
    - ii. The individual's evolving gender and any associated mental health concerns, and other psychiatric diagnoses;
    - iii. The date of the referring licensed mental health professional's re-evaluation.
